Mah Sing to launch M Luna sales gallery

PETALING JAYA: Mah Sing Group Bhd will be launching its sales gallery for the “M Luna” project on Dec 18.

Located strategically close to the Forest Research Institute Malaysia and adjacent to the 253-acre Kepong Metropolitan Park, M Luna will enable homeowners to experience the amazing Bukit Lagong Forest Reserve view.

Mah Sing said the upcoming M Luna sales gallery will be located at Taman Wahyu, 5km away from actual project site.

M Luna is currently open for registration and the public preview will take place concurrently with the launch of the sales gallery. Public is invited to visit the four-storey sales gallery to explore the scale models and landscape models, as well as having the opportunity to experience the ambience of the three newly designed show units to further understand the concept and offerings of M Luna.

M Luna sits on 5.47 acres of land located next to Kepong Metropolitan Park with an estimated gross development value of RM705 million. The proposed most affordable units would have an indicative built up from 700 sq ft and indicatively priced from RM385,000 - ranging from two to four bedrooms with one to two car parks per unit.
